

About us:

Swick Mining Services is a top 5 mineral drilling contractor providing high quality, high value underground drilling services to a diverse group of mining companies in precious metals, base metals and bulk commodities. The company specialises in underground diamond drilling and has a reputation for pioneering innovative rig designs that deliver improvements in productivity, safety, versatility and value. Swick's competitive advantage is sustained by its strong engineering expertise and dedicated R&D focus.

Swick is now part of the DDH1 Limited (ASX: DDH) group, one of the world's largest mineral drillers and DDH1, Strike and Ranger can offer complementary surface drilling services and expertise if required.

Swick provide drilling services to many of the world's largest mining companies, including Northern Star Resources, BHP Billiton, Newmont, Rio Tinto, Newcrest Mining Limited, St Barbara Mines, Aurelia Metals, Silver Lake Resources, Bluestone Mining (Metals X), Perilya, Sandfire Matsa, Somincor, Xstrata, Glencore, Barrick Gold, Goldcorp, Agnico-Eagle Mines, Independence Group and Gold Fields.

Swick has a unique business model with three divisions, including Swick Mining Services, which provides drilling services, Swick Engineering: Swick manufactures its own 90kw and 110kw underground mobile drilling rigs, and the DeepEX division, which focuses on specialised deep exploratory drilling where adverse ground conditions are present.

Swick operates in Australia, North America and Europe and employs more than 560 people.
